

“Save Georgia Hemlocks”

Georgia hemlocks are under attack. Sadly, the woolly adelgids are now infesting the entire native hemlock tree range in North Georgia, causing a deadly situation for unprotected trees. Come to our next Lunch & Learn and find out more information on this hemlock issue and learn homeowner tips for hemlocks from the Save Georgia’s Hemlock group.

Guest Speaker: Donna Shearer- Chairman, Save Georgia’s Hemlocks

Date: Thursday, August 13th, 2015
