

## Project Details - Hemlock Sapling Potting Project

**Date:** Sunday, November 12, 2017

**Event:** Volunteer hemlock sapling potting project at Buz Stone's Workshop in Rabun County.

The 100-200 hemlock saplings that were rescued at Smithgill Woods on the previous day will be potted for use in future educational and service events. They will be treated for adelgid protection as they are being potted the following day.

**Where to Meet:** Volunteers will gather at Buz Stone's Workshop, 9612 Hold Highway 441 S., Lakemont. See map on next page.

**Schedule:** **1:00 p.m.** – Volunteers come to the workshop.

After a briefing on the habitat and growth requirements of hemlocks, introduction to the potting materials, and instruction on the potting process, volunteers will work together to pot and treat the little trees.

**3:00 p.m.** – We'll pause for a short break for refreshments.

**By 5:00 p.m. or earlier if finished** – We'll stop work, clean up, and then head for home.

**Setting:** The work site is under cover, so the project will go forward rain or shine, but it may be chilly.

**What to Wear:** Dress for the weather and the activity, including **long pants and long sleeves**, and work gloves.

**What to Bring:** Trowels if you have them, marked with your name; also your personal water bottle and a camera if you like. We'll provide some snacks and extra bottled water.

**Registration:** Participants must sign up in advance by contacting Kim Wood at 706-455-2313 or [kimberlyraewood@gmail.com](mailto:kimberlyraewood@gmail.com). If you have questions, please call or email before you get to the area as cell communication service may be sketchy.

**Buz Stone's Workshop**, 9612 Old Highway 441 S., Lakemont, GA 30552  
It's 8.8 miles south of Clayton. In case you get misplaced, Buz's cell number is 404-626-1746.
