

**EDUCATIONAL ENVIROMNETAL SEMINAR
SATURDAY, APRIL 30TH, 10:30 AM TO NOON**

Everyone is invited to an Educational Environmental Seminar and Workshop on Saturday morning, April, 30th, from 10:30 am to noon at the Wildcat Creek Volunteer Fire Department. This event is being sponsored by the LBCA and will have representatives from the LBCA, Georgia Power Company, The Lake Burton Club, TRWC, and Save Georgia Hemlocks as part of the program.

The program will consist of brief presentations from each of the represented organizations about environmental issues that we should all take interest in as we head into another summer season. After the presentations there will be time for an open forum where the audience can ask questions to allow for further elaboration from the panel on any specific areas of concern.

This will be a great opportunity for all of us to learn what some of the current environmental issues in our watershed are, how they are being addressed, and how we as individuals might be better stewards of our environment.

Please mark your calendars and try to join us for a cup of coffee and a very informative exchange of information.

Hope to see you there,

Bill Russell
LBCA Water Quality Chair
TRWC Water Management Task Force Leader
