4. 2031 LOWERY RD is on the right. There's no sign on the road, but it's just past the Jones Family Cemetery on the right, and the number is on the mailbox.

Schedule: **9:00 a.m.** – Team leaders meet to receive project overview and instructions for the day.

9:15 a.m. – Volunteers will receive team assignments, an overview of the day, and safety reminders. Hemlock treaters will be briefed on the condition of the hemlocks, treatment process to be used, and work site location/access.

12:30 p.m. – Teams will come together at the Intern Cabin for a group picnic. After lunch we will resume treating.

By 3:30 p.m. – Our target project completion time is 3:30 p.m.(or earlier if finished). We'll stop work, clean the tools and equipment, and then head for home.

Terrain: The terrain around the treatment area is mostly gentle to moderately rolling. We'll make sure everyone is assigned to a work site where they can be safe and comfortable.

What to Wear: Dress for the weather and the activity, including **long pants and long sleeves, sturdy footwear** with socks, gloves, and rain gear in case of light rain. Nitrile gloves will be provided for those who will be handling chemicals.

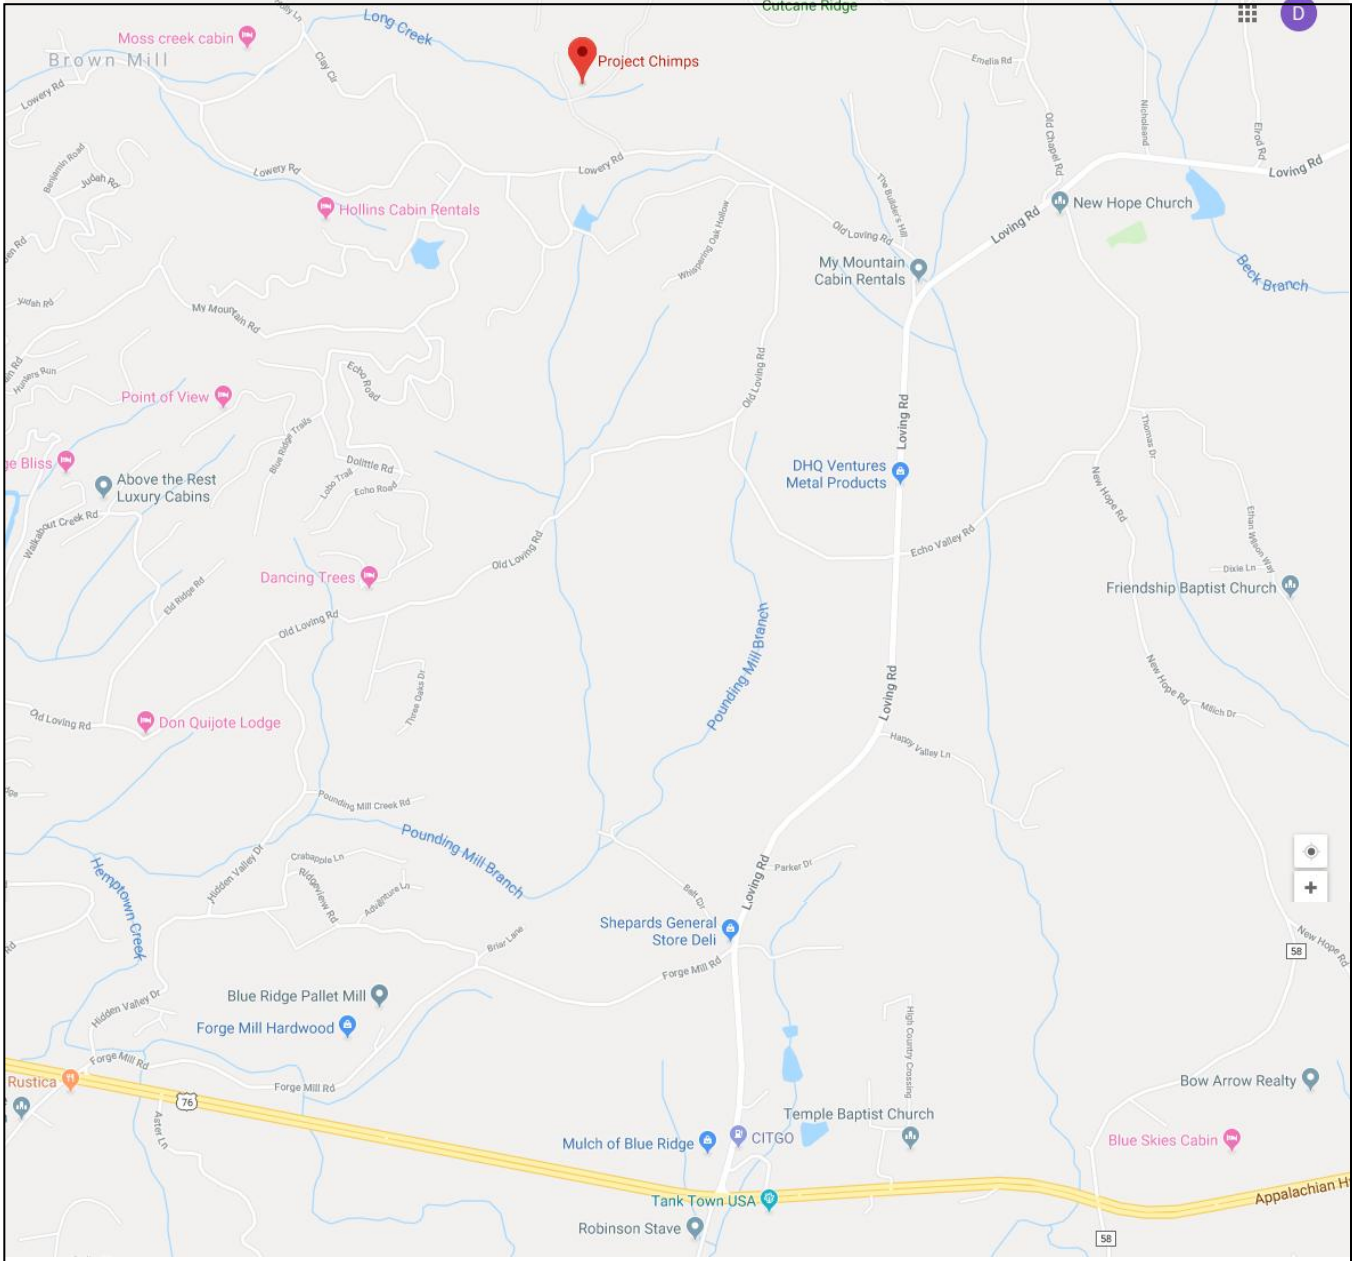

What to Bring: Pack a sack lunch, personal water bottle and a camera if you like. We'll provide some snacks and extra bottled water. If you have any serious allergies (like bee stings), bring whatever you need to manage.

Don't Bring: This is an environmentally-friendly, pack-it-in pack-it-out event, so please don't bring any glass or Styrofoam items. Also, as much as we love dogs, please don't bring them this time.

Registration: Participants not already signed up must do so in advance by contacting Donna Shearer at 706-429-8010 or donna@savegeorgiashemlocks.org. If you have questions, please call or email before Wednesday morning.
